

## Domino SP

PREVENTION, PROTECTION, PEACE OF MIND.

### indicative seal

# Fixed Length Metal Strap Seal

- **1.** Colour coding is enabled through different coloured caps and base of seals.
- **2.** Domino SP seals are etched with permanent laser marking for name, logo, sequential numbers & barcode. Laser marking offers the highest level of security as it cannot be removed or replaced.
- **3.** The Domino SP is a metal strap seal that has the marking etched on a corrosion proof plastic surface. The marking therefore stays clear and legible even after long-term applications. The extra long flap also provides ample space for customized markings.
- **4.** Heat staking is deployed to permanently fix the cap to be seal.
- **5.** Alignment holes ensure easy inspection of proper sealing.
- **6.** The strong and durable metal strap can withstand harsh handling and the climatic elements in a long-haul shipment.

#### **Specifications**

Product	Material		Strap	Strap		Pull	Marking	Max		
Domino SP (9mm / 7mm)			Length	Dimension	S	Strength	Area	Marking	Digit	s
DMSP 15	Polypropylene hea	130mm			Flap: 40mm x 15mm	14

### Highly Secure & Tamper Evident Strap Seal

The Domino SP is a highly secure strap seal due to its all metal locking mechanism which cannot be easily tampered without leaving clear evidence of tampering.

Typical applications include trucks and tankers. customs control, airline cargo, empty shipping container, rail wagons and warehouses.

Accepted by US & UK Customs

Be assured of better security with our innovative use of materials and industrial design.
